Correspondence: ***(F. Author) first.author@institution.edu***

Main

Note 1: Introduction

Write your introduction here. Introduce the problem, provide background information, and state your objectives.

Note 2: Methods

Describe your methodology here. Include enough detail for others to reproduce your work.

Note 3: Results

Present your findings here. Use figures and tables to support your results.

Note 4: Discussion

Discuss the implications of your results, compare with previous work, and suggest future directions.

Note 5: Conclusion

Summarize your main findings and their significance.

DATA AVAILABILITY
Information about data availability.

CODE AVAILABILITY
Information about code availability.

FUNDING
Acknowledge your funding sources here.

AUTHOR CONTRIBUTIONS
F.A. conceived the study, performed experiments, and wrote the manuscript.

ACKNOWLEDGEMENTS
We thank our colleagues for their support and feedback.

EXTENDED AUTHOR INFORMATION
